Art Unit: 2873

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in claim(s) 1-6, wherein a lens barrel comprises a linear guide ring having a second penetrate groove; a linearly movable ring provided inside said linear guide ring and has a cam on the outer circumference surface; a hand-operated rotating ring having a first penetrate groove; and wherein a projection member, which is to be engaged with the cam provided on said linear movable ring, via the second penetrate groove of said linear guide ring, is inserted from an outside of said hand-operated rotating ring, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The following references are cited for disclosing a lens barrel having a linear groove or is being linearly guided and having either a external cam or external helicoid or threads, but these references do no disclose a lens barrel comprises a linear guide ring having a second penetrate
